

Web Filtering Update

Incident Data

Current Visibility

- Google Logs
 - We have: detailed login, detailed admin, email, chat, doc access
 - We don't: detailed revision history, chat in docs, detailed forensics on Chromebooks
- Firewall Logs
 - SSL inspection on select categories
 - Broad visibility on unencrypted SSL traffic
 - Specific visibility on clear text traffic

Partnerships

- School Partnerships
 - DTLs, Techs, School Leadership
 - Common Sense Media and citizenship training
- Parent Partnerships
 - Securly parent

Potential Visibility Increase

- Securly Auditor or Similar
 - Content review of email docs and drive
 - Contextual web filtering alerts
 - Delegated authority
- Risks
 - Privacy implications
 - Loss of some technical control
 - Consistency concerns
